

Company LANCom has been for almost two decades one of the **leading IT system integrators** in Slovenia, providing its clients Consulting, Planning and Design of IT Solutions, Building and Implementing IT Systems and its Maintenance, complemented by a comprehensive range of training courses of its own training center.

Offering objective, competent and vendor-independent hardware integration of today`s leading vendors like HP, IBM, LENOVO, CISCO, SAMSUNG we are achieving great results in implementing high availability systems which have recently become a must for everyday business. Nowadays the most demanding are virtualization and server consolidation solutions, as the solutions on Microsoft platforms in combination with other Microsoft products.

Due to many years of professional experience in the security field we ensure our clients high level of security for both local and global communication solutions. To strengthen the support, the highest possible partner status »Microsoft Gold Certified Partner« for Security Solutions, Networking Infrastructure Solutions, Licensing Solutions and others, has been achieved.

As Microsoft, Epicor and ProClarity partner we offer integrated business solutions on Microsoft platforms. One of them is iScala, an ERP business solution designed by Epicor for the worldwide divisions and subsidiaries of multinational corporations and large local or regional companies that may have significant cross-border trading requirements.

Beside business solutions also healthcare solutions ISSA PACS (Picture Archival and Communications System) and multimedia solutions InfoChannel are provided.

We constantly transfer our skills and experience to IT users to help clients reach their business goals by wide range of learning programs designed to meet the specific needs and requirements, reduce risk, increase productivity and ensure success on both domestic and foreign markets. LANCom training center is the only authorised education center MCPLS (Microsoft Certified Partner for Learning Solutions) in north-eastern Slovenia following the program MOC (Microsoft Official Curriculum). Moreover we hold the Pearson VUE and Thomson Prometric testing center statuses. By attaining these certifications, LANCom offers an exam portfolio which includes all areas of information technologies. With top expert lecturers and in cooperation with world education centers we provide seminars, courses and workshops from many different fields.

We ensure total life-cycle support for multivendor hardware products, covering a full range of proven preventive, diagnostic, remedial and repair services. Our team delivers problem-solving assistance via telephone or Internet 24/7, 365 days per year. A wide list of references demanding IT users in mid-sized and large companies as well the public sector, proves our services quality.
